

What Causes Autism is the Knowledge needed to Cure Autism

I find it strange how the medical doctors are so adamant what is NOT the cause and what is NOT the cure, yet the medical books have no known cause for any disease and definitely no known cure.

How can I trust any science that does not know anything, especially the cause of any disease, nor the cure, yet they claim to be all knowing? Why are doctors violently persecuted when they KNOW the cause and the cure?

I reject the lies of medical research controlled by the AMA and drug companies. Their fraudulent research begins with we don't know, and ends with we don't know, with a lot of nonsense babble in between.

I choose to believe the doctors who do know the cause of Autism and do not fear the AMA, FDA or drug companies. For Autism, I am completely convinced that Dr. Buttar is 100% correct about the cause and the cure. The cause is the heavy metals such as mercury in vaccines. I believe Robert Kennedy's, Jr. interview on CNN is truth. Mr. Kennedy has evidence that Congress knows that vaccines are the cause of Autism and most all children's diseases, but Congress is unwilling to admit to their mistake or correct their mistake. Could it be that Congress has been influenced by the money of the drug companies? Have our Congress and Senate allowed death, destruction, pain and suffering for the love of money? Have our Congressmen sold out America by allowing the drug companies to kill, steal and destroy not only human life, but the American economy? People like you must stand up and demand truth. Join one of the many health freedom groups

and vaccine freedom groups and make your voice known to your Congressmen and Senators.

Dr. Buttar knows the cures because he acknowledges the causes.

The inflammation and fungus that follows vaccines should respond to making the body alkaline through baking soda. It is very inexpensive to test baking soda protocols. Read all you can about baking soda on this web site.
