

Robert's Teas

Pau D'Arco (also called Epe Roxo, Taheebo)

Chapparel

Red Clover

The following is a personal testimony of a man that I met in 1989. He lived in Red Bluff, California. My parents lived just a few miles away so I stayed with my parents and visited this man three days in a row listening to his testimony and learning about the teas that healed him. He talked about his life and how he overcame an incurable lymphoma cancer. I learned about things that happened to him that he did not write in the personal testimony on the brochure that she shared. Robert's Teas were sold in many health food stores in California and around the nation. He shared with me that he had over 20,000 people order his teas and he had thousands of letters with thankful testimonies.

Robert had a strong constitution, but when he first heard he was "going to die" and that treatment would not even help him, he had resigned to the "lie" that he was told by his doctor. His doctor was his friend and the doctor was "honest" that the treatment would only make him suffer and would do no good. Robert had witnessed the horrors of chemo when his mother was treated and died with colon cancer. He resolved he would not do chemo. He told me that after his friend confided in him about the treatment a team of doctors came to him telling him what chemo he would take and how he would take it. Even after Robert told the doctors that he would not do chemo they became aggressive in their push to make money off of his condition. Robert told me that he took the doctor by his shirt and lifted him up as he pushed him against the filing cabinet telling him NO for the last time. Robert did not want chemo!

Robert believed the doctor friend that there was no cure for his cancer and he resigned to getting his business affairs in order. When he was told about the teas, he told me that he did not believe the teas would help, but what did he have to loose. He definitely had no hope of a safe cure from the doctors. Robert was a strong-minded man and the teas gave him a small flicker of hope, so he tried the teas. He knew the lady who shared the teas with him, believed they would help him, so he tried the teas based on her faith. The testimony of that lady saved his life and that why he was so passionate about sharing the teas with others. He knows how it feels to believe the lies of the AMA and experience hopelessness.

He was told he had lymphoma in his early 60s and when I met him in his 70s, he was healthy and robust. He was passionate about helping others just like he was helped. He kindly gave me time to interview him and he was very considerate of my many questions. I was determined to learn all I could about cancer and how and why people were healed.

He was well into his 80s when he went home to be with the Lord. He had spent the rest of his life sharing with others what he did so others would not suffer from the lack of knowledge that kills so many each year. I share his story in memory of him and the knowledge that has saved so many from the sufferings caused by a godless medical science.

He helped enough people to get the negative attention of the FDA who began their criminal attack on Robert's freedoms and character. They tried to tell him he could not share his testimony in violation of his first amendment right. The FDA powers that deceive you today persecuted Robert and his family, but Robert fought back in court. The FDA knows it cannot win, but its goal is to financially destroy the competition. You cannot trust the FDA because the FDA has strong personal conflict because of its

monetary relationship with drug companies (Fight for Your Health: Exposing the FDA's Betrayal of America; ASIN: 1933927178).

Worse than that, Drug Company's control of medical research for their drugs so medical research is skewed in favor of deadly drugs/sorcer. FDA approved drugs that are properly prescribed murder over 200,000 people each year. That number is ONLY the number they admit to. You have to wonder how many died that they did not admit too. How many would have lived if they had used safe healing modalities as well. How many babies would not have been aborted if medical science would admit a baby is alive and human in the womb? How can we use a medicine that murders babies with a good conscious? The horrors of our health care go beyond the insane costs and the fact that health care is bankrupting America's wealth and health!

The deceived Senate and Congress makes laws that give the medical authorities power over people that equals dictatorship. It should be counted as treason for our Senate, Congress or President to receive money drug companies or foreign governments. The greed has skewed the legislators to not vote the will of the people. Greed rules our legislators except for a few who will not vote for their own raises and ridiculous retirement plans.

Beware of the medical professions control over you. You can easily loose all of your rights if family members are too ignorant to protect you. I know of testimonies where doctors have used the permission of a spouse to force treatments against the will of the patient. If you choose to not do chemo they will use fear to control you and your family. Your family members will believe their lies and pressure you to the point of giving in against your better judgment. Common-sense leaves in the presence of fear and the pressure of the fear from others.

Children are especially vulnerable to skewed and bad medical science, as you will learn from the doctors who tell the truth about vaccines. You will find hundreds of them on my www.cfhsn.ws web site. Parents have no rights when it comes to their children and cancer therapies. Beware parents if you want to do natural cures. The AMA oncologist or family doctor will turn you in as a neglectful parent. They will take your child away and force chemo on your child with no regard to the dangers of chemo or radiation. How can experimental poisons be forced on your children? The laws are skewed to make doctors gods and parents fools who do not agree with their doctor. Parents who take their kids to Mexico for healing can become fugitives and kidnappers if the AMA has anything to do with it. How do you avoid such things? You don't tell your doctor what you are doing and fire him by telling him you are going to another oncologist without telling him who, what, when or where. Let him believe you are going to a cancer specialist and thank him and don't be rude. Don't tell them that you disagree with him or anything about natural healing. They have been brainwashed and believe they are right even though they don't know the cause or the cure for anything. Get your child's medical records and give no place to the evil controls of the AMA over your children.

I want to assure you that no food, no herb, no tea, nothing has power to heal. God is the only power that heals. The foods, herbs and water only clean and nourish cells. But the power for healing belongs only to the Word of God.

Since 1988, I have studied about natural healing and I have come to understand through prayer and wisdom that comes from the God, that God is the Cure. I will explain why I believe the teas are so

valuable in helping clean the body of the culprits that causes cancers. Although the AMA medical books all read for each disease that there is no known cause and no cure, God is bigger than medical science. The clue as to why medical science fails to acknowledge truth is that they reject God. All science is limited to the theory of evolution! God's Word clearly tells us that when people reject His Truth, He turns them over to a delusion so that they will believe a lie. It is not until they humble themselves before God that the veil is removed from their eyes.

It is useless to try and present facts to these people because they are under a strong delusion. Do as God's Word says and DO NOT seek the counsel of the ungodly and those who embrace the ungodly wisdom of the medical science limited to evolution. It should be a major clue that when they say they don't know why you are sick that they do not know much at all. The cause is the factor that points to the cure! Drugs are chemicals/poisons/sorcery that have no business in our bodies. Drugs block God's communications in the DNA! Let God be true and man the liar.

Though there are some false signs and wonders in medical science (drugs/sorcery), there are no cures. You have to trust God and follow wisdom that is from above. There are many doctors who have the training of the false medicine that pushes drugs/sorcery, but they also have the TRUTH and practice truth. These doctors have turned away (repented of) what they learned in medical school. I have Internet links to these doctors on my web site www.cfhsm.ws

One common sense and godly way to understand cancer is to know first: cancer has a cause. I am sure that these teas work because they work quickly to rid the body of the cause, which I believe is fungus and the toxins that give fungus a place. Fungus can choke the life out of cells, causing inflammation and rotting of flesh. Why and how we get fungus can vary (toxins, acid/low PH, etc), but ultimately, it is the same result. After you watch the videos by Dr. Simoncini on my web site, you should have a basic understanding about cancer and how you can rid your body of the cause, Fungi. Your cells that have turned cancerous are cells that cannot breathe so they divide in an anaerobic state (no oxygen). Once oxygen is returned, they will revert to normal cells. (Warburg and Koch). Our cells do not form colonies, spread, metastasize or form roots. Fungi metastasizes, forms colonies, forms roots and chokes the life breath from cells.

Common sense tells us that fungus chokes the life breath out of everything it attacks. Again, watch Dr. Simoncini's videos and get his book. The more you know the more you can receive understanding from God. (In your getting of wisdom and knowledge, get understanding).

Know this to be true. The body DOES NOT heal itself. The Body is not a self, it is created from the dust of the earth, and the DNA has the "mind of Christ" in WHOM you live and move and have your being. Your soul has a free will to obey the desires of the flesh or the will of God. The sin nature of the flesh is a curse because of the FALL, but thanks be to God, In Christ Jesus we have the Spirit of God to overcome all the power of the enemy (Romans 8 and Gal 5).

You choose to either follow the fears of the world or the truth of God's Word. You choose whom you will serve, life or death. God sets before us LIFE and DEATH, he has given us a voice that can use the tongue to speak LIFE or DEATH. Our tongue creates the good or bad in our life. He commands us to choose LIFE, but we have a free will. God's Word says He will NOT withhold any good thing from us and if any man lacks wisdom to ask of HIM and He will give it to him, IF, he doubts not.

God has NOT withheld the cures. God's Word tells us that God sent His Word to heal to all of our diseases. The cells have the Word that God saw before He formed you in your mothers' womb. God's Word about you is the SUBSTANCE that He saw before He formed you in your mother's womb! The Word is unseen in the natural, but manifests in the natural as the instructions seen in the DNA forms you in your mother's womb. Every cell has the God breathed word about you. Every cell is God directed/destined. Every new cell is a creative work of God's Word, not the body. Though your natural body has trillions of cells, you have only ONE DNA! Every DNA in every cell is exactly the same copy of your spirit, with God's Wisdom in your innermost parts. The mind of Christ is the wisdom that orchestrates the trillions of cells with billions of messages being sent and received to each cell. Only the mind of Christ is able to do this miracle as we are perfectly and wonderfully created. We have to stop trusting in a godless science and bring God back into science, which only means, "to know". To know God is to know truth and that comes ONLY through the Word, Jesus Christ who was sent for our healing and He healed ALL of their diseases. Healing NEVER ceases, it is only blocked by lies you believe, sin, and pollution in the mind, body and spirit. Clean up all areas of your life and healing IS, just as God IS.

The flesh will return to dust! Your soul is born again in Christ to live eternally with God (DNA God's breath) and apart from the body is to be present with Jesus. Or, without Christ, your soul is eternally separated from God and in torment just like God's Word says. I pray you choose to believe God's Word.

The word of God that He put in His book about you is not a program, but a living Word. Apart from His Spirit there is no life. He is all and in all. IN HIM (His Word) you live and move and have your being. All things exist and are created by His Will. He is all and in all, but we don't worship the created things!

The A. L. Roberts testimony below is like hundreds of different testimonies I have learned about. Why do so many different healing modalities result in healing? People are looking for a Magic pill, but there is no such thing. People assume the food is healing them because they are getting better after they change their diet, but in reality the food has no power to heal. Foods only feed and strengthen your cells. The cells are either weak or strong based on the food and the cleanliness of cell environment. God created every cell in your body and God fills all of creation and nothing that was made was made apart from His Word. Cellular communication is a new frontier for science, but the lie of evolution restricts medical understanding to the confusion of evolution, thus no known causes and no cures. Creation and even intelligent design is vehemently prohibited in medical science research. That is contrary to the faith of a believer in Christ because God's Word says we must acknowledge Him in everything and then He will make our paths straight. It is God's Word in the DNA that orchestrates life and healing. We have freedom to choose the environment of our body, soul and spirit. God is not mocked a man reaps what he sows.

Disclaimer: All information shared is for educational purposes and each individual much choose to do what they know to do according to their belief and faith. No man can tell you the outcome of your choices, but God. His Word sets before you life and death, choose life! In respect to the laws in place, I have to tell you to seek a qualified health professional for your health issues.

Exact Quote from Robert's brochure
THE TEA THAT HEALS
My personal Testimony
A.L. Roberts

In April 1983, I became very ill. After being tested and x-rayed by my own doctor and a specialist, I was told I had cancer. I was immediately sent to a San Francisco hospital where I was extensively tested and x-rayed. I received the same diagnosis and the cancer had progressed and enveloped the lining of my right lung.

Several doctors reviewed my case. A few days later I was told there was no treatment for the type of cancer I had. I insisted that I be released from the hospital with appointments to return.

My first return appointment was on May 17, 1983. I wasn't any better and was taking pills for pain. My next appointment was on June 14, 1983. More tests and x-rays were made. At this time the pills had to be increased for the severe pain I was in. My doctor told me that several doctors evaluated my case and didn't think I had over six months to live. But (he) didn't think I had that long. He said if I had anything to do, I had better get it done. During this conversation I asked the name of my type of cancer. He said one way to remember it easily is it's the same type Steve McQueen died of, and that it is a very fast acting cancer. I told the doctor that I was going to attempt to treat myself through nutrition or any other method I could find. He said sure, anything.

It wasn't until the first week of July 1983, while visiting a friend that I learned about Taheebo tea. His wife heard that I only had a short time to live. She told me she had something that would cure me in 30 days. I had my doubts that this would help me, but I was willing to try anything. I came home and immediately started taking Taheebo, Chaparral and Red Clover teas. (Taheebo is also known as Ipe' Roxo and Purple Lapacho.) Ipe' Roxo is the brand that I drank. I found it to be the finest quality available. (Be careful, as there are some brands on the market that won't help you.)

Within 24 hours I had no more pain. A few days later after taking the teas and being on my own nutritious diet, I began having excessive bowel movements which lasted about 2 ½ days. I immediately started feeling much better. I was sure the cancer had gone but I had no way of being sure until my next scheduled appointment.

By August 2, 1983, I had been taking the three teas for three weeks and two days. More tests and x-rays were taken to find out how far the cancer had progressed. The doctor and several other doctors found that I no longer had cancer. My lung was clear. My amazed doctor asked me what I had done to cure myself. When I told Him of the teas, he cautioned me not to continue taking them. But I continued anyway.

On November 1, 1983, I had my last check up, and had no more cancer. I have told several people with cancer about these teas along with my nutritious diet. Several people that had terminal cancer tried this and were well in a very short time. I feel that the combination of the three teas and eating nutritious foods is what healed my body.

When I first learned of Taheebo I found it wasn't readily available and no one seemed to know of the tea or its benefits. That's why I have taken it upon myself to let people know about my experience. I'm glad now there was no treatment available through my doctors, because I didn't have to go through the debilitating chemotherapy, radiation and surgery that would have disfigured and damaged my body.

**WHAT FOLLOWS IS THE COURSE THAT I TOOK TO CURE MY UNTREATABLE CANCER....
End Quote. I provided a scan picture of the diet of A.L.Roberts.**

NUTRITIONAL GUIDE*

I always drank Ipé Roxo and the other teas on an empty stomach if possible. I kept the Ipé Roxo prepared in the refrigerator and reheated one cup at a time. I DID NOT USE A MICROWAVE OVEN AT ANY TIME. (See next page for important brewing instructions.)

ESSENTIAL HERBAL TEA SCHEDULE

30 Minutes Before Breakfast	1 1/2 Hours After Breakfast
1 cup Chaparral	1 cup Ipé Roxo
30 Minutes Before Lunch	1 1/2 Hours After Lunch
1 cup Ipé Roxo	1 cup Ipé Roxo
30 Minutes Before Dinner	Just Before Bed
1 cup Ipé Roxo	1 cup Red Clover

I wasn't able to eat most of the time, I felt I needed the best nutrition possible. I eliminated unnecessary foods and concentrated on only foods that would give my body the nutrition it needed to keep what little strength I had left.

PLEASE NOTE: All cooked foods were STEAMED, BROILED or BAKED. I ate NO red meats or fried foods of any kind. I DID NOT drink coffee, milk or soft drinks. I drank at least one glass of fruit juice with each meal. (Mainly apple juice.) I DID NOT eat or drink citrus fruits. I sweetened my teas and foods with honey, NOT sugar. I ate 7 grain bread.

I kept a salad prepared in the refrigerator. Many times I had no appetite so I ate at least the salad. I ate small portions of the other foods as often as possible. In my salad I used fresh, raw, grated vegetables and fruits. I used more carrots and cabbage than the other vegetables. I added a small amount of mayonnaise for consistency. (Plain unsweetened yogurt may be used in place of mayonnaise.) If fresh fruits and vegetables were not available I used frozen foods. I only used canned pineapples (drained).

I USED THE FOLLOWING TO PREPARE MY SALAD

(All of these foods were grated into each salad.)

carrots	broccoli	apples
cabbage	turnips	peaches
cauliflower	raisins	pineapples (drained)

FOR BREAKFAST I CHOSE FROM THESE FOODS

Oatmeal or Oat Bran

Cream of Wheat

(if desired, only on occasion) Eggs-Boiled or Poached on Toast

FOR LUNCH AND DINNER I CHOSE FROM THESE FOODS

MEATS

chicken

turkey

fish

(white meat only)

VEGETABLES

red potatoes

brown rice

VEGETABLES (Cont.)

carrots

turnips

cauliflower

broccoli

cabbage

brussel sprouts

asparagus

FRUITS

raisins

apples

pineapples (drained)

peaches

pears

prunes

cherries

I chose from any 3 or 4 of these foods for each meal. I ate portions of meat at least 2-5 times per week. I ate portions of ALL the foods listed for 30 days or longer if necessary. I did not eat any other foods. I found out later that these foods have cancer fighting agents in them.

SOME OF THIS FOOD IS NOT FOR DIABETICS

BREWING INSTRUCTIONS

IPÉ ROXO (TAHEEBO) TEA:

Use a covered container made of Stainless Steel, Corning Ware, Glass or Porcelain. Do not use aluminum. Add 1 quart of distilled or pure water and bring to a boil. Add 1 heaping tablespoon of the Inner Bark. Simmer for 10 minutes, turn off heat and let stand for 20 minutes. Strain into a glass container and store in refrigerator.

Take 8 oz. at least 4 times a day, at least 30 minutes before meals. If you wake during the night, drink an additional 8 oz. The terminally ill sometimes choose to use it stronger and more often if time is of the essence. (Double the strength.)

TAHEEBO IS THE INNER BARK OF A TREE NATIVE TO SOUTH AMERICA. I DID NOT USE IPÉ ROXO HERBAL TEA IN CAPSULE FORM OR IN TEA BAG FORM. Do not use a coffee maker of any kind. Brewing time cannot be reduced as therapeutic nutrients are released during this 30 minute process.

CHAPARRAL and RED CLOVER TEAS:

To prepare Chaparral and Red Clover Teas, follow the instructions found on the package. I used Chaparral and Red Clover in tea bag form ONLY.

I SUPPLEMENT MY DIET WITH THESE VITAMINS

1 - 1000 mg. Vitamin C w/Rose Hips (twice a day)

1 - 25000 IU. Vitamin A 1 - Kelp Tablet

1 - 30 mg. Zinc tablet

Since 1983 when I cured myself of cancer, I have read and researched many articles concerning Tahebo tea. I've learned that South American doctors discovered this tea through ancient Indian tribes who have used Tahebo for thousands of years. South American doctors have been practicing with this tea for over 20 years and have had great success in treating the following maladies:

ANEMIA	GASTRITIS	POLYPS
ARTERIOSCLEROSIS	GONORRHEA	PROSTATITIS
ARTHRITIS	HEMORRHAGES	PSORIASIS
ASTHMA	HERNIAS	PYORRHEA
BLOOD BUILDER	HODGKINS DISEASE	RHEUMATISM
BRONCHITIS	INFECTIONS	RINGWORM
CANCER, ALL TYPES	LEUKEMIA	SKIN-CANCER
COLITIS	LIVER AILMENTS	SPLEEN INFECTIONS
CYSTITIS	LUPUS	SYPHILIS
DIABETES	NEPHRITIS	TONIC
ECZEMA	OSTEOMYELITIS	ULCERS
EYELIDS (PARALYSIS)	PARKINSON'S DISEASE	VARICOSE VEINS
FISTULAS	PAIN, RELIEVES	WOUNDS

I feel better than I have in years. My wife and I drink about 2 cups Tahebo each day. Neither of us have had to see a doctor since my cancer was cured. Many friends drink this also and haven't had the need to see a doctor. Some have used Tahebo tea for some of the above mentioned maladies and they too have had great success especially for cancer and arthritis.

I have also learned that you can eat all you want of these foods and lose weight without losing your strength. People who drink the tea for seven days before scheduled surgery seem to suffer no staff infections and the healing is much faster. This diet seems to make our metabolism work properly and will also make you gain weight if needed.
